

BOONE ELECTRIC COOPERATIVE

Computer Code "4"

SCHEDULE AHDATE TO BE EFFECTIVE: **April 1, 2023 Billing****SCHEDULE APPLICABLE TO:**

Single phase service at locations that have approved off peak heating installations.

AVAILABILITY

Available to members meeting the Cooperative's requirements for off peak heat, requiring single phase or three phase service requiring 100 KVA or less transformer capacity, subject to the established rules and regulations of the Seller. This rate will be effective for the periods beginning with the first billing cycle in November and remaining in effect through May billing of each year.

CHARACTER OF SERVICE

Single phase or three phase service under 100 KVA, 60 Hertz, at available secondary voltages.

MONTHLY RATE

Service availability charge \$ 36.00 per month for Single Phase

| | |
|---------------|----------------------|
| First 600 kWh | @ 10.0 cents per kWh |
| Next 1400 kWh | @ 9.5 cents per kWh |
| Excess | @ 9.0 cents per kWh |
| Heat Usage | @ 7.0 cents per kWh* |

SERVICE AVAILABILITY CHARGE

The service availability charge under the above rate shall be \$ 36.00 per month. No kWh are included in this charge. The service availability charge shall be the monthly minimum.

POWER COST ADJUSTMENTS

In the event the rate under which the Cooperative purchases power at wholesale is adjusted, the foregoing charges may be adjusted by an amount sufficient to compensate for the change in the cost of wholesale power.

TAXES

The above rate does not include taxes and shall be subject to an increase in proportion to the amount of new taxes or increased taxes which the Cooperative may hereafter be required to pay which are levied or increased by laws or ordinances which were not in effect on the effective date of this schedule.

TERMS OF PAYMENT

Bills are due ten (10) days after the billing date. Bills not paid 25 days after the billing are subject to disconnection.

CONDITIONS OF SERVICE

This schedule is limited to locations that have alternate sources of fuel for heating (natural gas, propane or oil). Member must have approved automatic switchover device which will cause member to utilize alternate fuel sources when the outside temperature drops below 15 degrees F.

This service requires installation of a separate meter to record heating usage. The rate for this service will be effective for the periods beginning with the first billing cycle in November and remaining in effect through June billing of each year.

Member is to provide separate circuit facilities for dual fuel heat service so that Cooperative is able to meter these facilities independently. Said facilities should terminate adjacent to the main meter panel or at a location approved by the cooperative.
